BTW, I am in alignment with Sue on the process we have used up to this point to elect people for a position. For now, we should be allowing the whole general assembly a chance to vote at the general assembly meetings, even for a county position such as county coordinator/facilitator. Especially right now I think that is important so everything is in the open to the whole assembly. As an assembly we will all have to figure out the timing on when each county starts to act on its own and Anna hasn't really discussed county level stuff much. We can certainly discuss different viewpoints in a general assembly meeting but this is how we have been doing it.

Thanks for your opinion and Sue just sent me a e-mail.

I will answer it with my standing in the whole process. I think I can help bring the assembly together and move it forward. There is a lot of talk about what is going on but the people do not see it. On the monthly meets just does not show everyone what has been done and what is needed to complete the task.

Everyone needs to see progress.

And again thank for you input.

Hi Rockie,

I talked to Sue in the last few days and I am confident she wants to figure out a way everyone can work together. I mentioned to her about Craig and she was very remorseful that she had not made amends with him.

I am not sure how to get the assembly back in sync so I would appreciate any thoughts you have. I had hoped people would just move forward and try to forgive and forget.

I also mentioned to her your intention to be Clark County Facilitator and also a state coordinator. Neither Sue nor myself are sure yet if that is acceptable so I put the question to Teri. I'll let you know what I find out.

Mark,

Have you talked to Sue lately? I sent her an e-mail and have not got a response.

Could you reach out to her and see where she stands in helping the assembly.
