How do you think that makes sense when from one side of your mouth you claim to want to work with me and out the other side you're trying to solicit criminal complaints behind my back? Do you even know what Criminal incident reports are for? How can you act so self righteous? Do you really believe that anything about the way you've proceeded is honorable?

Sue,

You tell me how a report of a meeting minutes has to do with any one man or woman unless you are trying to attack someone. This is what I am talking about. We could of had a question and answer so you get the real truth about what is on the report instead of accusing someone of not being in honor.

When people work together we grow together by how we conduct are self's with each other and help in making the information right and come up with the best results moving forward. We do not do this but cutting each other down.

We do not spread false information about each other. We all need to make sure we research everything and before putting it out to the world we know it is correct. We need evidence. real evidence. the truth.

If Doug or anyone would of ask me about Shallon I said in the Clark County meeting we cannot do anything for him because he is in Nye County. I did talk to Eric about this and told him that Shallon would have to go to the state General Meeting to be voted in as the Militia Commander. The people in the Clark County meeting said they would be on the call to support him. How is that not working in honor. Eric was not wrong on stating this information in his report.

Now Eric is getting attack for doing the right thing.

Everyone,

We all should be working together in peace and honor and stop attacking each other. This kind of tactic is a de-facto move in divide and concur.

Quit trying to divide everyone and start working together.

This is getting old and it does not help the Assembly grow but only stops the growth. You will see from this fighting that more and more people will stop coming or attending any meeting.

We need to start pulling together and stop this fighting.

Here is a video on how the vetting committee should work. What I have seen so far does not match anything close to this. When there is a conflict of interest in anything we need to step out and let someone else with a clear mind do the work. My two cents.

Who is in the vetting committee. I was told that some people was in the committee and did not get to do the vetting.

Eric,

Please see my response. You need to stop playing games and start acting in honor.

Thanks,

Dear Vetting committee,

I apologize again for not having my input ready by our agreed upon deadline of Wednesday. I did explicitly ask for more time though; and disappointingly, instead of getting any response the report was sent out without my contribution.

Thank you Sue for agreeing yesterday to add my report as an addendum. Please send out the entire report again with my addendum attached.

Best Regards
