

May 21 2026

Michael, You have no authority to tell anyone or the people how to run the assembly or to make demands without the people's approval. The people are The Nevada Assembly not just you 4 people on this email.

You keep stepping out of what your position duties are. I did get approval from the people to create an LRO and get recording secretaries for the assembly to put people in the LRO. That included getting anything they need to do the job. The recording secretaries are being vetted by the Union State vetting committee and are being trained on how Nevada has set forth in the vetting process.

If you want me to hold a meeting for you again to prove this point, I will. The people have spoken and want this done in Nevada. So, STOP TRYING TO TAKE OVER the Nevada Assembly that belongs to the people not you and your demands.
