It is not the job of the State of the Union to organize the Union State. It is the job of the members of the State of the Union to go home to their home County, organize the County Assembly, and from the combined Counties, assemble the Union State. It's built of people at the country level operating county assemblies. Not a matter of paperwork. Not something that the State of the Union can or should do.

I don't know why this continues to be such a source of misunderstanding and acrimony. If you can grasp the concept of a two-layer cake, you should all be able to figure this out.
What I do know is that failing to come to a firm understanding of the differences of jurisdiction, mission, and identity is continuing to cause unnecessary "drama" and to waste time and emotion and energy.

Please. Take five minutes out of your busy day and contemplate a two-layer cake. Think about it. I believe that the truth will become self-evident and you can all go on about your respective work in peace. If not, call me and I will try my best to explain it to you, but in all events, make every effort to build peace, unity, and respect. Every minute you spend tearing each other down is a minute that the real enemies of peace and health and abundance and every other good thing are winning. Is that what you want?

I thought not.....

Anna

Anna,

It never stops with Sue and Micheal in trying to remove me.

Here is Sue's agenda and attached is The Union State document they created.

The confusion is never going to stop.
